## NUTRITIONAL & HOMEOPATHIC SPECIALTIES

- ★ **Tableted Nutritional**s (vitamins, minerals, botanicals, glandulars) are “Wick Formulated” to produce ultimate bioavailability and absorption. Each tablet contains a cellulose web that transports moisture to the center of the tablet resulting in gentle disintegration.
- ★ **Glandulars** are processed to evoke the highest response using the Salt Process to escalate enzyme activity in glands that need high enzymatic output (pancreas); the Azeotropic Process to retain glandular material without high fat content (liver, kidney, thymus, spleen, lung tissue); and, the Freeze Dried Method to retain desired properties found in adipose tissue (brain, heart, adrenal, thyroid, gonadal substances).
- ★ **Herbs** are organically grown without the use of herbicides or pesticides.
- ★ **Potency** is manufactured at 105% of nutritional label claim.
